

QUARRY PROJECT OF M/s POPULAR SAND AND METALS

SURVEY NO. : 42/2 pt, 42/3 pt & 43/4 pt
EXTENT : 3.8675 Hectares
VILLAGE : OORAKAM
TALUK : THIRURANGADI
DISTRICT : MALAPPURAM
STATE : KERALA

HALF YEARLY COMPLIANCE REPORT 2024-2025

Ref: EC. No: 32/2017 (File No: 874/SEIAA/EC1/3105/2015)

DATED: 02/05/2017

FOR THE PERIOD FROM
OCTOBER 2024 TO MARCH 2025

GEC MINING & ENVIRONMENTAL SOLUTIONS PVT. LTD.
KALATHINGAL, TC 82/2565/1, CHIRAKKULAM ROAD, THIRUVANANTHAPURAM,

4th Floor, E&F Wing, Kendriya Sadan,
Koramangala, Bangalore - 560034.

Ref: EC. No: 874/SEIAA/ECI/3105/2015 dated: 02/05/2017

Sub: Environmental Clearance- Quarry project at Survey Nos : 42/2 pt, 42/3 pt&
43/4 pt in Oorakam Village, Thirurangadi Taluk, Malappuram District, Kerala.

Respected Sir,

The quarry (Building Stone) Project was accorded Environmental Clearance for 3.8675hectares, By Order No: EC No: 874/SEIAA/ECI/3105/2015 dated: 02/05/2017. By State Environment Impact Assessment Authority,Kerala. Compliance report to the specific and general conditions of the Environmental Clearance is enclosed herewith.

Thanking you

Yours respectfully,

M/s Popular Sand and Metals.

Mr. Jibin Jacob
(Current Managing partner& Authorized signatory)

Copy to:-
The Member Secretary
State Environment Impact assessment Authority (SEIAA)
Thiruvananthapuram, Kerala.

Encl: As Above.

I. ABOUT THE PROPONENT

Mr. Jibin Jacob, Current Managing partner & Authorized Signatory of M/s Popular Sand and Metals.

State Environment Impact Assessment authority (SEIAA) Kerala accorded Environmental Clearance No **32/2017 (File No: 874/SEIAA/EC1/3105/2015) -Dated: 02/05/2017** to the quarry project in Oorakam Village, Thirurangadi Taluk, Malappuram District, Kerala State managed by Mr. Jibin Jacob, Current Managing partner & Authorized Signatory of M/s Popular Sand and Metals.

II. ABOUT THE PROJECT

a. Project Category:

The project comes under the Category B, Activity 1(a), (i) of Schedule of EIA Notification 2006 and subsequent amendments.

b. Project Location:

Survey Nos : 42/2 pt, 42/3 pt& 43/4 pt in Oorakam Village, Thirurangadi Taluk, Malappuram District, Kerala.

The proposed project site falls within latitude and longitude value:

Latitude (N)	11°05'07.12" N to 11°05'13.20"N
Longitude (E)	76°01'24.94"E to 76°01'34.61"E

c. Project Extent and Activity:

The project is for quarrying of **1,25,000 MTA** of building stone from an area of **3.8675 hectares** of land located as specified above.

d. Project Description:

The project activity involves about 100 % of the pit area for exploring building stone. At the end of life of mine, excavated pit will be fully reclaimed and rehabilitated by plantation. The project does not involve any underground mining activities. The mining is done by open cast semi mechanized method. The expected life of mine is 19years.

III. REPORT OF COMPLIANCE

A. SPECIFIC CONDITIONS

ITEM NO	STIPULATIONS IN EC	STATUS OF COMPLIANCE
S-1	The water drained from the site should be properly collected and clarified before discharge.	The project proponent ensured that all storm water from the mining area flow in to the pond. The project has constructed storm water drains in the lower slopes of the project area for effective management of storm water. This helps to channelize the storm water to the rain water collection pond and the most of the debris are settling down at the bottom of the pond. The clarifiers will be installed soon.

S-2	The overburden should be stored at specific site and with protection.	Overburden is an inevitable byproduct of building stone quarry. There is no old quarry in the site for restoration. The overburden materials are stored within the site at designated place. This will be used to restore the exploited area in future. The photograph of OB is provided in
-----	---	---

S-3	The CSR has to be revised consulting the local Panchayath.	As part of inclusive growth of the community, the project proponent executes various activities under Corporate Social Responsibility of the firm with the consultation of Panchayath. The main activities were under the sectors of education, housing, health etc. ANNEXURE 6
-----	--	--

B. GENERAL CONDITIONS

Item No	STIPULATIONS IN EC	STATUS OF COMPLIANCE
G-1	Rain Water Harvesting facility should be installed as per the prevailing Provisions of KMBR/KPBR, unless otherwise specified.	To collect rain water from the entire project land, the proponent has developed one rain water harvesting pond in the quarrying area. The storm water from all mining areas is properly channelized to this pond. It is situated in the lowest level of quarry area. The storm water flow is leading to the pond through natural drainage. The excess clear water is flowing to the public draining after proper filtration. Rain water is mainly used for gardening, wetting of roads, Washing of sand and splashing for contain dust emission.

G-2

Environment Monitoring Cell as agreed under the affidavit filed by the proponent should be formed and made functional.

The Environmental Monitoring Cell (EMC) was formed with **Mr. Jibin Jacob (Current Managing Partner)** as head of the monitoring cell. The EMC meeting convenes regularly to evaluate and monitor quarrying work in connection with the specific and general conditions stipulated in the Environmental Clearance (EC) order. **INDEX.IV.c**

Sl. No.	Post	Name
1	Head of the monitoring cell	Mr. Jibin Jacob (Current Managing Partner)
2	Head in charge (Environment)	Mr. Jomon Joseph
3	Senior Environmental Officer	Mr. Joi
4	Environmental Officer	Mr. Rafeeqe Rahman
5	Name of the environmental officer in charge	Mr. Murshid
6	Name of the officer Environment, Health and safety	Mr. Santo
7	Name of Environment, Health and safety In charge	Mr. Jomon joseph
8	Name of the environmental consultant	GEC Mining Solutions

G-3	Suitable avenue trees should be planted along either side of tarred road and open parking areas, if any, inclusive of approach road and internal roads.	To enrich vegetation and prevent air pollution, the project proponent planted different avenue trees either side of the roads, parking area and other areas in the project land. There are natural vegetations including trees, shrubs, herbs and climbers also present.
-----	---	--

G-4	Maximum possible solar energy generation and utilization shall be ensured as an essential part of the project.	Solar energy generation and utilization is being explored
-----	--	---

G-5

Sprinklers shall be installed and used in the project site to contain dust emissions.

The emission of dust is a major adverse effect of a mining industry. To prevent dust emission, water tanker sprinklers are using in the project site This help to suppress dust during the time summer season. The monitoring of the air quality through a State Pollution Control Board accredited laboratory helps the project proponent to maintain the air quality within the permissible limit. The monitoring report is attached in **ANNEXURE 7**.

G-6	Eco-restoration including the mine closure plan shall be done at the own cost of the project proponent.	The eco restoration plan prepared by the project will be executed in a good manner. The project started to plant various saplings in and around the project site. The mine closure plan will be done at the own cost of project proponent as agreed in the proposal. Eco restoration affidavit is enclosed in ANNEXURE 1 .
G-7	At least 10 percent out of the total excavated pit area should be retained as water storage areas and the remaining area should be reclaimed with stacked dumping and overburden and planted with indigenous plant species that are eco-friendly. If, no other specific condition on reclamation of pit is stipulated in the E.C	To conserve rain water, 10 percent of the excavated pit area will be retained as water storage area. This will help to improve the ground water table. It is proposed to develop a vegetative cover in the remaining area with indigenous plant species after reclamation of the mined area with stacked top soil and overburden.

G-8	Corporate Social Responsibility (CSR) agreed upon by the proponent should be implemented.	As part of inclusive growth of the community, the project proponent executes various activities under Corporate Social Responsibility of the firm with the consultation of Panchayath. The main activities were under the sectors of education, housing, health etc. ANNEXURE 6
G-9	The lease area shall be fenced off with barbed wires to a minimum height of 4ft around, before starting of mining. All the boundary indicators (boards, stores, markings, etc.) shall be protected at all times and shall be conspicuous.	As part of ensuring safety and to prevent the falling of human beings & animals in to the mined out area, the project proponent has installed barbed metal wire fencing on the steep cutting in the project site.

G-10	Warning alarms indicating the time of blasting (to be done at specific timings) has to be arranged as per Stipulations of Explosive Department.	The project proponent has installed warning alarms as per the stipulation of Explosive department in the quarry site. The timing of blasting in the quarry is in between 7.00 am to 5.00 pm on all working days.
------	---	--

G-11	Control measures on noise and vibration prescribed by KSPCB should be implemented.	To reduce noise level in the project site, the project proponent has implemented mitigate masseurs. The major noise generating sources from the mining activity is working machineries, drilling, blasting and plying of vehicles.
G-12	Quarrying activities should be limited to day time as per KSPCB guidelines.	To reduce the inconvenience of community, the quarrying activities are limited to day time only as per KSPCB guidelines. The quarry working time is 7.00 am to 5.00 pm. This will help to limit the sound pollution.
G-13	Blasting should be done in a controlled manner as specified by the regulation of explosives Department or any other concerned agency.	To reduce fly rock and ground vibration, the blasting is done in controlled manner by using ordinary delayed detonators. All blasting activities are carrying out with the stipulated guidelines of explosive department and other concerned agency. The blasting time is displayed in the sign board and all blasting happens in the specified timings. ANNEXURE 2
G-14	A licensed person should supervise/control the blasting operations.	The project proponent has appointed Mines Manager, Foreman and mining mates in the site to supervise/control exploitation of minor minerals including blasting at the project site.

G-15	Access roads to quarry shall be tarred to contain dust emissions that may arise during transportation of materials.	One of the main sources of dust emission is roads. To reduce emission of dust, the access road from the entrance of project site to quarry is tarred. The project is spraying water on the road to arrest the dust during summer season. The project proponent is intending maintain access road to the quarry in good condition for dust emission and easiness of transportation of vehicles.
------	---	--

G-16	Overburden materials should be managed within the site and used for reclamation of mine pit as per mine closure plan/ specific conditions.	Overburden is an inevitable byproduct of building stone quarry. There is no old quarry in the site for restoration. The overburden materials are stored within the site at designated place. This will be used to restore the exploited area in future.
------	--	---

G-17	Height of benches should not exceed 5 m and width should not be less than 5 m if there is no mention in the mining plan/specific conditions.	All mining activities are progressing under the supervision of qualified personals. To enhance safety and to make environment friendly quarrying, the excavation activity in the project is progressing by creating benches of 5m width x 5m height.
------	--	--

G-18	Mats to reduce fly rock blast to a maximum of 10 PPV should be provided.	The project proponent is using blasting mat. The project is using ordinary/ electric delayed detonator for blasting therefore there is no incident of fly rock is happened in the community. The project is also assuring the maximum PPV is under 10 during the time of blasting.
G-19	Maximum depth of mining from general ground level at site shall not exceed 10m.	Maximum depth of mining from general ground level at site will not exceed 10m.

G-20	Non mining operations should be carried out at places having a slope greater than 45°.	There is no area with a slope greater than 45° in the project site. Therefore it is not necessary to explore from the slopes greater than 45°.
G-21	Acoustic enclosures should have been provided to reduce sound amplifications in addition to the provisions of green belt and hollow brick envelop for crushers so that the noise level is kept within prescribed standards given by CPCB/KSPCB.	There is no crusher unit near the quarry area. So there will be no air or sound pollution due to crusher unit happens. The project has provided ear plugs to the labors to reduce the impact of noise generation from the machines. Vegetation around the mining area will help to reduce noise and air pollution. This helps the noise level kept within prescribed standards. Labors to assure this, the project have monitored the noise level periodically by a NBEL accredited laboratory. The result is provided in ANNEXURE 7 .
		
G-22	The workers on the site should be provided with the required protective equipment such as ear muffs, helmet, etc.	The project has provided adequate Personnel Protective Equipments (PPE) such as helmets, ear plugs, safety belts, gloves, etc. in order to ensure the safety of workers in working site
G-23	Garland drains with clarifiers to be provided in the lower slopes around the core area to channelize storm water.	The project proponent ensured that all storm water from the mining area flow in to the pond. The project has constructed storm water drains in the lower slopes of the project area for effective management of storm water. This helps to channelize the storm water to

the rain water collection pond and the most of the debris are settling down at the bottom of the pond. The clarifiers will be installed soon.. The project is monitoring the quality of drinking water by a NABL accredited laboratory to assure that there is no pollution in the drinking water.

G-24

The transportation of minerals should be done in covered trucks to contain dust emissions.

To arrest the dust emission while transportation of materials, the project assures the trucks are covered before it leaving the project site.

G-25	The proponent should plant trees at least 5 times of the loss that has been occurred while clearing the land for the project.	As part of concurrent eco restoration, the project planted various saplings in the project area as a compensation of loss of trees while the project is clearing the land for mining.
------	---	---

G-26	Disposal of spent oil from diesel engines should be as specified under relevant Rules/Regulations.	Disposal of spent oil from diesel engines are specified under relevant Rules/Regulations.
------	--	---

G-27

Explosives should be stored in magazines in isolated place specified and approved by Explosive Department.

As per the stipulation of competent authority, the project has been storing the explosives in magazine. The magazine is situated in an isolated place specified and approved by the explosives department.

G-28	A Minimum buffer distance of 100 m from the boundary of the quarry to the nearest dwelling unit or other structure not being any facility for mining shall be provided.	A Minimum buffer distance of 100 m from the boundary of the quarry to the nearest dwelling unit or other structure, not being any facility for mining is provided.
G-29	100 m buffer distance should be maintained from forest boundaries.	Statutory safe distance shall be maintained without fail.
G-30	Consent from Kerala State Pollution, Control Board under Water and Air (Acts) should have been obtained before initiating mining activity.	Consent issued from Kerala state pollution control board (Consent no: PCB/MLPM/ICO/R2/1656/2023 , dated 30/03/2023 , and valid up to 01/05/2028 . is attached in ANNEXURE 3.
G-31	All other statutory clearances should be obtained, as applicable, by project proponents from the respective competent authorities including that for blasting and storage of explosives.	All statutory clearances, approvals, licenses are obtained from concerned authorities. All conditions stipulated in such approvals are strictly followed. • D&O license issued by Oorakam Grama Panchayath vide license number B3-838/20223-69, dated 31/03/2023, and validity from 01/05/2023 to 31/03/2027. • Petroleum and explosive safety organization (formerly dept. of explosives) license number E/SC/KL/22/790(E34591), dated: 20/11/2023, and valid from 05/11/2021 to 31/03/2026. The certificates obtained from other concerned statutory authorities are attached in ANNEXURE 2, 3

G-32	In the case of any change(s) in the scope of the project, extent quantity, process of mining technology involved or in any way affecting the environmental parameters/ impacts as assessed, based on which only the EC is issued. The projects would require a fresh appraisal by this authority, for which the proponent shall apply and get the approval of this Authority.	In case of any change(s) in the scope of the project, the proponent will apply for fresh appraisal to get the Environmental Clearance.
G-33	The Authority reserves the right to add additional safeguard measures subsequently, if found necessary, and to take action including revoking of the environment clearance under the provisions of the Environment (Protection) Act, 1986, to ensure effective implementation of the suggested safeguard measures in a time bound and satisfactory manner.	To enhance the safety and eco friendly mining, if the authority instructs to add additional safeguard measures subsequently, the project will be complied with.
G-34	The stipulations by Statutory Authorities under different Acts and Notifications should be complied with including the provisions of Water (Prevention and Control of Pollution) Act, 1974, the Air (Prevention and control of Pollution) Act, 1981, the Environment (Protection) Act, 1986, the Public Liability (Insurance) Act, 1991 and EIA Notification, 2006.	The stipulated orders and directions under different act and notification including EIA notification will be scrupulously followed. A brief list of various Acts and notifications which are followed by the proponent is given below • Kerala Minor Mineral Concession Rules, 2015. • KPIMST Rules, 2015 • Mines Act, 1952 • Explosive Rules, 2008 • Kerala Panchayat Raj Act, 1994 • Central Ground Water Authority • Water Pollution (Prevention & Control) Act, 1974 • Air Pollution (Prevention & Control) Act, 1981 • Environment Protection Act, 1986 • EIA Notification, 2006 / 2009 • The Kerala Promotion of Tree Growth in Non-Forest Areas (Amendment) Act, 2007. • Municipal Solid waste handling and management

G-35	The project proponent should advertise in at least two local newspapers widely circulated in the region, one of which (both the advertisement and the newspaper) shall be in the vernacular language informing that the project has been accorded Environmental Clearance and copies of clearance letters are available with the State Environment Impact Assessment Authority (SEIAA) office and may also be seen on the website of the Authority at www.seiaakerala.org. The advertisement should be made within 10 days from the date of receipt of the Clearance letter and a copy of the same signed in all pages should be forwarded to the office of this Authority as confirmation	An advertisement in two local newspapers regarding Environmental Clearance accorded to the quarry project was given within the stipulated period and the copy of the same was submitted at SEIAA Kerala. The copy attached in previous reports.
G-36	A copy of the clearance letter shall be sent by the proponent to concerned Grama Panchayath/District Panchayath / Municipality/ Corporation/ Urban Local Body and also to the Local NGO, if any, from whom suggestions / representations, if any, were received while processing the proposal. The Environmental clearance shall also be put on the website of the company by the proponent.	A copy of the Environment Clearance letter was submitted to the Panchayath Office. The project proponent did not receive any suggestions / representation from anywhere while the processing the proposal therefore does not give the copy of clearance letter to anyone. The project does not have a website and it will create a company website soon. ANNEXURE 4
G-37	The proponent shall submit half yearly reports on the status of compliance of the stipulated EC Conditions including results of monitored data (both in hard copies as well as by email) and upload the Status of compliance of the stipulated EC conditions, including results of monitored data on their website. It shall simultaneously be sent to the respective Regional office of MoEF, Govt. of India and also to the State Environment Impact Assessment Authority (SEIAA) Office	The compliance report is being submitted to the Directorate of Environment and Climate Change, Govt. of Kerala and also to the Regional Office of MoEF & CC, Govt. of India both in hard copy as well as mail. The result of monitored data is provided in ANNEXURE 7.

G-38	The details of Environmental Clearance should be prominently displayed in a metallic board of 3 ft x 3 ft with green background and yellow letters of Times New Roman font of size of not less than 40. Sign board with extent of lease area and boundaries shall be depicted at the entrance of the quarry, visible to the public.	The conditions of the environmental clearance prominently displayed in a metallic board of 3 ft x 3 ft with green background and yellow letters of Times New Roman font was installed. Sign board is also displayed showing lease area and boundaries at the entrance of the quarry.
------	--	---

G-39	The proponent should provide notarized affidavit (indicating the number and date of Environmental Clearance proceedings) that all the conditions stipulated in the EC shall be scrupulously followed.	The proponent has provided notarized affidavit (indicating the number and date of Environmental Clearance proceedings) that all the conditions stipulated in the EC have been scrupulously followed. ANNEXURE 5
------	--	---

G-40	No change in mining technology and scope of working should be made without prior approval of the SEIAA, No further expansion or modifications in the mine shall be carried out without prior approval of the SEIAA, as applicable.	Change in mining technology, scope of working & further expansion or modifications in the mine will be carried out only after with a prior approval of the SEIAA.
G-41	The project proponent shall ensure that no natural water course and/or water resources shall be obstructed due to any mining operations. Necessary safeguard measures to protect the first order streams, if any, originating from the mine lease shall be taken.	Ensured that no natural water course and/or water resources were obstructed due to any mining operations.
G-42	Monitoring of Ambient Air Quality to be carried out based on the Notification 2009, as amended from time to time by the Central Pollution Control Board. Water sprinkling should be increased at places loading and unloading points & transfer point to reduce fugitive emissions.	Scrupulously follows the directions contained as per the conditions. The result of monitored data is provided in ANNEXURE 7 .
G-43	The top soil, if any, shall temporarily be stored at earmarked site(s) only for the topsoil shall be used for land reclamation and plantation. The over burden (OB) generated during the mining operations shall be stacked at earmarked dumpsite(s) only. The maximum height of the dumps shall not exceed 8m and width 20m and overall slope of dumps shall be maintained to 45°. The OB dumps should be scientifically vegetated with suitable native species to prevent erosion and surface runoff. In critical areas, use of geo textiles shall be undertaken for stabilization of the dump. The entire excavated area shall be backfilled. Monitoring and management of rehabilitated areas should continue until the vegetation becomes self-sustaining.	The top soil is temporarily stored at earmarked site(s) only for the topsoil shall be used for land reclamation and plantation. The over burden (OB) generated during the mining operations also stacked at earmarked dumpsite(s) only. The maximum height of the dumps is not allowed to exceed 8m and width 20m and overall slope of dumps are maintained to 45°. The OB dumps are scientifically vegetated with suitable native species to prevent erosion and surface runoff.. The entire excavated area will be backfilled at the reclamation period. Monitoring and management of rehabilitated areas will continue until the vegetation becomes self-sustaining.

G-44	Catch drains and siltation ponds of appropriate size shall be constructed around the mine working, mineral and OB dumps to prevent run off of water and flow of sediments directly in to the river and other water bodies. The water so collected should be utilized for watering the mine area, roads, green development etc. The drains shall be regularly de silted particularly after monsoon and maintained properly.	The project proponent ensured that all storm water from the mining area flow in to the pond. The project has constructed storm water drains in the lower slopes of the project area for effective management of storm water. This helps to channelize the storm water to the rain water collection pond and the most of the debris are settling down at the bottom of the pond. The clarifiers will be installed soon.
------	---	---

G-45	Effective safeguard measures such as regular water sprinkling shall be carried out in critical areas prone to air pollution and having high levels of PM10 and PM2.5 such as haul road, loading and unloading points and transfer points-it shall be ensured that the Ambient Air Quality parameters conform to the norms prescribed by the Central Pollution Control Board in this regard.	Scrupulously follows the directions contained and ensured that the Ambient Air Quality parameters conform to the norms prescribed by the Central Pollution Control Board in this regard. ANNEXURE 7
G-46	Fugitive dust emissions from all the sources should be controlled regularly. Water spraying arrangement on haul roads, loading and unloading and at transfer points should be provided and properly maintained	The emission of dust is a major adverse effect of a mining industry. To prevent dust emission, water tanker sprinklers are using in the project site This help to suppress dust during the time summer season. The monitoring of the air quality through a State Pollution Control Board accredited laboratory helps the project proponent to maintain the air quality within the permissible limit. The monitoring report is attached in ANNEXURE 7 .
		
G-47	Measures should be taken for control of noise levels below 85dBA in the work environment.	Measures have been taken for the control of noise levels below 85DbA in the work environment. ANNEXURE -7

G-48	A separate environmental management cell with suitable qualified personnel should be set-up under the control of a Senior Executive, who will report directly to the Head of the Organization.	A separate environmental management cell with suitable qualified personnel has been set-up under the control of a Senior Executive, who will report directly to the Head of the Organization. INDEX IV C
G-49	The funds earmarked for environmental protection measures and CSR activities should be kept in separate account and should not be diverted for other purposes. Year wise expenditure should be reported to the State Environment Impact Assessment Authority (SEIAA) office.	The funds earmarked for environmental protection measures and CSR activities are being kept in separate account and have not been diverted for other purposes. Year wise expenditure will be reported to the State Environment Impact Assessment Authority (SEIAA) office. ANNEXURE 6
G-50	The Regional office of MOEF &CC located at Bangalore shall monitor compliance of the stipulated conditions. The project authorities should extend full cooperation to the officer(S) of the Regional Office by furnishing the requisite data/information/monitoring reports.	The Regional office of MOEF &CC located at Bangalore will monitor compliance of the stipulated conditions. The project authorities will extend full cooperation to the officer(S) of the Regional Office by furnishing the requisite data/information/monitoring reports.
G-51	Any appeal against this Environmental clearance shall lie with the National Green Tribunal, if preferred, within a period of 30 days as prescribed under section 16 of the National Green Tribunal Act, 2010.	Strictly follow the rules and scrupulously follows the directions contained.
G-52	Concealing the factual data or submission of false/fabricated data and failure to comply with any of the conditions mentioned above may result in withdrawal of this clearance and attract action under the provisions of Environment (Protection) Act, 1986	Strictly follow the rules, if any factual data is concealed or false/fabricated data is submitted and failure to comply with any of the conditions mentioned above is found.
G-53	The SEIAA may revoke or suspend the order, for non-implementation of any of the specific or this implementation of any of the above conditions is not satisfactory. The SEIAA reserves the right to alter/modify the above conditions or stipulate any further condition in the interest of environment protection.	SEIAA can revoke any order if any of the specific or this implementation of any of the above conditions is not satisfactory.
G-54	The above conditions shall prevail notwithstanding anything to the contrary, in consistent, or simplified, contained in any other permit, license on consent	Yes, all the above conditions shall prevail notwithstanding anything to the contrary, in consistent, or simplified, contained in any other permit, license on consent given by any

	given by any other authority for the same project.	other authority for the same project.
G-55	This order is valid for a period of 5 years or the expiry date of mine lease period issued by the Government of Kerala, whichever is earlier.	Yes, this order is valid for a period of 5 years or the expiry date of mine lease period issued by the Government of Kerala, whichever is earlier.
G-56	The Environmental Clearance will be subject to the final order of the courts in any pending litigation related to the land or project, in any court of law.	Yes, the Environmental Clearance is subjected to the final order of the courts in any pending litigation related to the land or project, in any court of law.
G-57	The mining operation shall be restricted to above ground water table and it should not intersect ground water table.	The mining operation has been restricted to above ground water table and it will not intersect ground water table.
G-58	All vehicles used for transportation and within the mines shall have 'PUC' certificate from authorized pollution taking center. Washing of all vehicles shall be inside the lease area.	All vehicles used for transportation and within the mines are with 'PUC' certificate from authorized pollution taking center. Washing of all vehicles are allowed only inside the lease area.
G-59	Project proponent should obtain necessary prior permission of the competent authorities for drawal of requisite quantity of surface water and ground water for the project.	Project proponent has obtained necessary prior permission of the competent authorities for drawal of requisite quantity of surface water and ground water for the project.
G-60	Regular monitoring of flow rates and water quality upstream and downstream of the springs and perennial nallahs flowing in and around the mine lease area shall be carried out and reported in the six monthly reports to SEIAA.	Regular monitoring of flow rates and water quality upstream and downstream of the springs and perennial nallahs flowing in and around the mine lease area will be carried out and reported in the 6 monthly reports to SEIAA.
G-61	Occupational health surveillance program of the workers should be under taken periodically to observe any contractions due to exposure to dust and take corrective measures, if needed.	Occupational health surveillance program of the workers will be done periodically to observe any contractions due to exposure to dust and corrective measures will be taken, if needed.

IV.a. DRILLING

The excavation of mineral is proposed by excavators. The mineral is fractured and easily exploitable by rock breakers and excavators. The hard strata are proposed to excavate after drilling and blasting. The cross-sectional view of drilling operations is shown below:-

Salient features of drilling

- About 30 to 50 holes per blast of 32 mm dia and to a depth of 2 to 2.5m will be adopted.
- It is estimated about 2 to 3 T production per hole.
- Number of blasts per day depends upon the workable area and production to be achieved.
- The spacing of 1.0 to 1.5m between the holes will be adopted.
- About 250g per hole of explosive will be used. However, 10 kg/blast will be adopted at any point of time.
- Millisecond electric blasting will be adopted to limit the PPV and Noise levels within the stipulated standards.

IV.b. BLASTING

The controlled blasting is proposed by adopting all the safety measures as per “MMR 1961” and with the permission of DGMS.

In this area for fragmentation of granite the blasting will be conducted. Multiple blast holes of 1.0 to 1.5 m depth will be drilled with the help of 32 mm drill rod, Jack Hammer and Air Compressor of 100 cfm capacity.

It is estimated about 250 g of explosives per hole is required. About 30 – 50 holes per blast are proposed. Therefore, the requirement of explosives will be about 10 kg/ blast.

2.6.6.1 BLASTING SAFEGUARD

- Blasting in the open cast pits will be done only during day time at designated hours.
- Only competent blasters will be appointed to handle explosive.
- Explosives will be stored in approved and licensed magazine as per Explosive Act/ Rules.
- Explosives will be brought from magazine to blasting site in licensed Explosive Van under the care of blaster.
- Sufficient warning signals will be given before blasting the holes.
- Guards will be posted on all roads and paths at least 250 m distance to stop entrance to the danger zone during blasting hour.
- Controlled blasting will be practiced to control vibrations and flying fragments.
- Optimum charge will be used, while blasting near office complex/ infrastructure site.
- Maximum charge per delay will always be less than 10kg to limit the PPV levels within the DGMS standards of 15 mm/sec.

IV.c. ENVIRONMENTAL MONITORING CELL

An environmental monitoring cell was formed with **Mr. Jibin Jacob (Current Managing Partner)** head of the monitoring cell and made functional. Meeting of monitoring cell is arranged monthly and discuss the status of the compliance of the specific and general conditions contained in the Environmental clearance order. The details of the monitoring cell members are given below:-

Sl. No.	Post	Name
1	Head of the monitoring cell	Mr. Jibin Jacob (Current Managing Partner)
2	Head in charge (Environment)	Mr.Jomon Joseph
3	Senior Environmental Officer	Mr. Joi
4	Environmental Officer	Mr. Rafeeqe Rahman
5	Name of the environmental officer in charge	Mr. Murshid
6	Name of the officer Environment, Health and safety	Mr. Santo
7	Name of Environment, Health and safety In charge	Mr. Jomon joseph
8	Name of the environmental consultant	GEC Mining Solutions

IV.d. TREES IN THE SITE

Natural vegetation including trees, shrubs and herbs present in the quarry site are mentioned in the table below:-

S1 No.	Scientific Name	Common Name	Family
1	Heveabrsiliensis	Rubber	Euphorbiaceae.
2	Bambusa vulgaris	bamboo	Bambusoideae
3	Swieteniamacrophylla	Mahagony	Meliaceae
4	Gliricidia sepium	Seemakonna	Fabaceae

ANNEXURE 1

**AFFIDAVIT FOR ECO-
RESTORATION**

കേരളം KERALA

N 622713

AFFIDAVIT

I, Mr. Jibin Jacob, Managing partner & Authorized Signatory of M/s Popular Sand and Metals., do hereby affirm and confirm as follows:-

Ref: EC No. 32/2017 (File No: 874/SEIAA/EC1/3105/2015) -Dated: 02/05/2017

1. That, I propose to develop a quarry project at Survey No: 42/2 pt, 42/3 pt & 43/4 in Oorakam Village, Thirurangadi Taluk, Malappuram District, Kerala. for an area of 3.8675 Ha
2. That, the eco-restoration including the mine closure plan will be done at our expenses.

Verification:

Verified that my above statements are true to the best of my knowledge and belief and no material has been concealed therein.

Deponent : JIBIN JACOB

Place: Ernakulam

Date: 01/07/2024

मैगजीन में वर्ग 1,2,3,4,5,6, और 7 के विस्फोटकों को बिक्री या प्रयोग हेतु रखने के लिए प्ररूप एल.ई. 3 [अनुच्छेद 3 (ख) से (ग)] में मुख्य विस्फोटक नियंत्रक या विस्फोटक नियंत्रक द्वारा प्रदान किए जाने वाले अनुज्ञप्ति सं. E/SC/KL/22/790(E34591) की शर्तें निम्नलिखित हैं।

The following are the conditions of licence number E/SC/KL/22/790(E34591) to possess for sale or use, explosives of Class 1,2,3, 4, 5, 6 and 7 in a magazine in Form LE-3 (articles 3(b) to (c)) granted by Chief controller of Explosives or Controller of Explosives.

- परिसर में किसी भी समय विस्फोटकों की मात्रा अनुज्ञापन योग्य सामर्थ्य से अधिक नहीं होगी।
The quantity of explosives on the premises at any one time shall not exceed the licensable capacity.
- विस्फोटकों के भंडारण के लिए प्रयुक्त होने वाली मैगजीन अनुसूची III और अनुज्ञप्ति के उपाबंध में विनिर्दिष्ट सुरक्षा दूरी बनाए रखना होगा।
The magazine used for storage of explosives shall maintain safety distance specified in Schedule III and annexure to the licence.
- मैगजीन का प्रयोग उन सभी विस्फोटकों के, जो इस अनुज्ञप्ति में विनिर्दिष्ट है, रखे जाने के लिए और ऐसे रखे जाने से संबद्ध आधान या औजार या उपकरणों के रखे जाने के लिए ही किया जाएगा; अन्यथा नहीं।
The magazine shall be used only for keeping all explosives specified in this licence and of receptacles for, or tools or implements for work connected with the keeping of such explosives.
- पैकजों को खोलने का कार्य और विस्फोटकों को तौलने तथा पैक करने का कार्य मैगजीन में नहीं किया जाएगा।
The opening of packages and the weighing and packing of explosives shall not be carried on in the magazine.
- दो या दो से अधिक वर्णन के विस्फोटकों को, जिन्हें मैगजीन में रखे जाने की अनुज्ञा दी जा सकती है, मैगजीन में तभी रखे जाएंगे जब उनमें से प्रत्येक को, ऐसे पदार्थ या स्वरूप का कोई मध्यवर्ती विभाजक लगाकर या उनके बीच ऐसा मध्यवर्ती स्थान छोड़कर, परस्पर पृथक कर दिया जाए कि किसी वजह से विस्फोटक में लगने वाली आग या होने वाला विस्फोट किसी अन्य वर्णन के विस्फोटक तक न पहुंच सके : परंतु –
(घ) 2 (नाइट्रेट मिश्रण), वर्ग 3 (नाइट्रो योगिक) के विभिन्न विस्फोटक, वर्ग 6 प्रथम प्रभाग के अंतर्गत आने वाले सुरक्षा पलीते और वर्ग 6 प्रभाग 2 के अंतर्गत आनेवाले विस्फोटक प्रेरक पलीते, जिनमें कोई खुला लोहा या इस्पात नहीं है, एक दूसरे के साथ बिना किसी मध्यवर्ती विभाजक या स्थायन के रखे जा सकते हैं।
(ङ) वर्ग 6 प्रभाग 3 के अंतर्गत आनेवाले विस्फोटक प्रेरक अलग रखे जाएंगे।
(च) वर्ग 1 के अंतर्गत आने वाले बारूद को अलग रखा जाएगा।
Two or more description or explosives which may be permitted to be kept in the magazine shall be kept only if they are separated from each other by an intervening partition of such substance or character, or by such intervening space, as will effectually prevent explosion or fire in the one communicating with the other; Provided that—
(d) the various explosives of Class 2 (nitrate-mixture), Class 3 (nitro-compound), safety fuses belonging to Class 6 Division 1 and detonating fuses belonging to Class 6 Division 2 as do not contain any exposed iron or steel, may be kept with each other without any intervening partition or space ;
(e) Detonators belonging to Class 6 Division 3 shall be kept separately.
(f) Gun powder belonging to Class 1 shall be kept separately.
- वर्ग 3 (नाइट्रो योगिक) के विस्फोटकों को, उनके विनिर्माण की तारीख से एक वर्ष बीत जाने के पश्चात सिवाय अनुज्ञापन प्राधिकारी की विशेष मंजूरी के मैगजीन में नहीं रखा जाएगा।
Explosives of Class 3 (nitro compound) shall not be kept in the magazine after the expiration of one year from the date of their manufacture except with the special sanction of licensing authority.
- वर्ग 3 (नाइट्रो योगिक) के विस्फोटकों को, उनके विनिर्माण की तारीख से एक वर्ष बीत जाने के पश्चात मैगजीन में तभी रखा जाएगा जब कि किसी विस्फोटक नियंत्रक ने इसके लिए विशेष मंजूरी दे दी हो।
(i) जब ऐसी मंजूरी दे दी गई हो तो प्रत्येक निरीक्षण पर किसी विस्फोटक नियंत्रक से ऐसा लिखित प्रमाणपत्र अभिप्राप्त कर लिया जाए जिसमें दी गई मंजूरी के अंतर्गत आनेवाली अवधि दर्शित की गई हो और ऐसे प्रमाणपत्र के अनुज्ञप्तिधारी अपने पास रखेगा और मांग की जाने पर प्रस्तुत करेगा।
(ii) जब कोई विस्फोटक मानक शुद्धता का न रह जाने के कारण या द्रवणीकरण या नाइट्रो ग्लाइसीन या द्रव नाइट्रो योगिक के निकल जाने के चिन्ह प्रकट होने के कारण मैगजीन में भण्डारित किए जाने के उपयुक्त नहीं रह जाता है तो अनुज्ञप्तिधारी अपने ही व्यय पर ऐसे विस्फोटक के निपटारे के लिए ऐसे निदेशों का अनुपालन करेगा जो मुख्य नियंत्रक या विस्फोटक नियंत्रक जारी करें।
Explosives of Class 3 (nitro compound) shall not be kept in the magazine after the expiration of one year from the date of their manufacture except with the special sanction of the Controller of Explosives.
(i) When such sanction has been given, a written certificate showing the period covered by the sanction shall be obtained from the Controller of Explosives at each inspection, and shall be kept by the licensee and produced on demand.
(ii) When an explosive owing to its being no longer of standard purity or owing to signs of liquefaction or of exuded nitro-glycerin or liquid nitro-glycerin or liquid nitrocompound is no longer fit for storage in the magazine or store house the licensee shall comply, at his own expense, with such directions as to its disposal as the Chief Controller or Controller of Explosives may issue.
- मैगजीन के भीतरी भाग या उसमें लगी बेंचें, शेल्फों और उसकी फिटिंग का इस प्रकार सन्निर्माण किया जाएगा या उन्हें इस प्रकार अंतरित या अवतरित किया जाएगा कि विस्फोटक का किसी लोहे या इस्पात के साथ संपर्क रोका जा सके। भीतरी भाग में लगी बेंचें, शेल्फें और फिटिंग यथासाध्य ग्रिट से मुक्त एवं साफ रखे जाएंगे तथा ऐसे विस्फोटक, जो जल से खतरनाक रूप में प्रभावित हो सकते हैं, इस बाबत सम्यक सावधानी बरती जाएगी कि वहां कोई जल मौजूद न रहे : परंतु किसी लोहे या इस्पात के खुले होने के विरुद्ध सावधानी से संबंधित इस शर्त का वह भाग ऐसे किसी भवन में बांधेकर नहीं होगा जिसमें वर्ग 6 (गोला बारूद) के प्रथम के विस्फोटक से भिन्न कोई विस्फोटक रखा गया है।
The interior of the magazine and the benches, shelves and fittings therein shall be so constructed or so lined or covered as to prevent the exposure of any iron or steel contact with the explosives. Such interior, benches, shelves and fittings shall so far as is reasonably practicable, be kept free from grit and shall otherwise be clean; and in the case of any explosives liable to be dangerously affected by water, due precautions shall be taken to exclude water there from;
Provided that so much of this condition as relates to precautions against the exposure of any iron or steel shall not be obligatory in a building in which no explosive other than explosive of the 1st Division 6th (Ammunition) Class is kept.
- यदि तडित चालक का परीक्षण विस्फोटक नियंत्रक करता है तो अनुज्ञप्तिधारी ऐसे परीक्षण के लिए विहित फीस का संदाय करेगा यदि परीक्षण असमाधानकारी साबित होता है तो उतनी ही फीस अनुज्ञप्तिधारी द्वारा पश्चात्कर्त्त प्रत्येक परीक्षण के लिए तब तक दी जाती रहेगी जब तक कि परीक्षण अधिकारी तडित चालक को समाधानप्रद घोषित नहीं कर देता :
परंतु किसी एक परीक्षण के लिए देय फीस किसी एक दिन के दौरान किसी चालक के किए गए सभी परीक्षणों के लिए प्रभार्य होगा :
परंतु यह और कि यदि दो या अधिक तडित चालक एक ही मैगजीन से संबद्ध हैं तो ऐसे सभी चालकों के परीक्षण के लिए फीस ऐसी किसी फीस से अधिक नहीं होगी जो किसी एक तडित चालक के परीक्षण के लिए हर स्थिति में विहित की गई है।
If the lighting conductor is tested by the Controller of Explosives, the licensee shall pay the fees prescribed for test. In the even of the test proving unsatisfactory, the same fees shall be payable by the licensee for each subsequent test until the lighting conductor is passed by the testing officer as satisfactory:
Provided that the fees payable for a single test shall be charged for all tests made on a conductor during any one day :
Provided further that where two or more lighting conductors are attached to one and the same magazine, the fee for the testing of all such conductors shall not exceed the fee prescribed in this condition for testing a single lighting conductor.
- उपयुक्त तथा जब रहित कार्यकरण वस्त्रों, उपयुक्त जूतों के प्रयोग द्वारा तथा तलाशी लेकर या अन्यथा अथवा ऐसे किन्हीं साधनों द्वारा इस बाबत सम्यक उपबंध किया जाएगा कि फैक्ट्री परिसर में अग्नि, दियासलाई अथवा ऐसी कोई वस्तुएं या पदार्थ, जिससे विस्फोट हो सकता है या आग लग सकती हो, किन्तु इस शर्त के कारण ऐसी संरचना, स्थिति या स्वरूप में किसी कृत्रिम बत्ती का प्रवेश वर्जित नहीं है जिससे आग लगने या विस्फोट होने का खतरा न हो :
परंतु इस शर्त का वह भाग, जो लोहे या इस्पात के अपवर्जन को लागू होता है, ऐसे किसी भवन के संबंध में बाध्य कर नहीं होगा जिससे भिन्न कोई विस्फोटक नहीं रखा गया है।
Due provisions shall be made, by the use of suitable working clothes without pockets, suitable shoes and by searching or otherwise or by such means, for preventing the introduction into danger area of the factory premises of fire, Lucifer matches or any substance or article likely to cause explosion or fire, but this condition shall not prevent the introduction of an artificial light of such construction, position or character as not to cause any danger of fire or explosion:
Provided that so much of this condition as applies to the exclusion of iron or steel, shall not be obligatory in a building in which no explosive other than an explosive of the 1st Division of the 6th (Ammunition) Class is kept.

11. अनुज्ञापितधारी प्ररूप आर.इ.-3 और आर.इ.-4 या आर.इ.-5, जैसी स्थिति हो, में सभी विस्फोटकों का अभिलेख और लेखा रखेगा और विस्फोटक नियम, 2008 के अधीन प्राधिकृत किसी भी अधिकारी के समक्ष उसके द्वारा ऐसा करने की मांग की जाने पर स्टॉक पुस्तक और अभिलेख प्रस्तुत करेगा। स्टॉक पुस्तक विहित प्रोफार्मा में पृष्ठ संख्यांकित होगी।
The licensee shall keep records and accounts of all explosives in Forms RE-3 and RE-4 or RE-5, as the case may be, and exhibit the stock books and records to any of the officers authorised under the Explosives Rules, 2008 whenever such officer may call upon him to do so. The stock books in the prescribed proforma shall be page numbered.
12. परिसरों में कोई परिवर्तन या तबदीली अनुज्ञापन प्राधिकारी के पूर्वानुमोदन बिना नहीं की जाएगी और अनुज्ञापितधारी ऐसी किसी शर्त का अनुपालन करेगा जो इस निमित्त अनुज्ञापन प्राधिकारी विनिर्दिष्ट करें।
No changes or alterations shall be carried out to the premises without prior approval of the licensing authority and the licensee shall comply with any condition that may be specified by the licensing authority in this behalf.
13. मैगजीन सभी समयों पर अच्छी मरम्मत की स्थिति में बनाई रखी जाएगी (या अच्छी हालत में बनाई रखी जाएगी)। यदि किसी कारणवश किसी विस्फोटक के भण्डारण के लिए मैगजीन अनुपयुक्त हो जाती है तो अनुज्ञापितधारी इस बात की सूचना अनुज्ञापन प्राधिकारी को तुरंत देगा।
Magazine shall at all times be kept in state of good repair (or maintained in good condition). The licensee shall report to licensing authority forthwith, if the magazine becomes unfit for storage of any explosives for any reason whatsoever.
मैगजीन का अनुज्ञापितधारी इन नियमों के नियम 24 के उप-नियम 3 के अनुसार त्रैमासिक विवरणी प्रस्तुत करेगा।
The licensee of the magazine shall submit quarterly return as per sub-rules (3) and (4) of rule 24 of these rules.
14. यदि सुरक्षा दूरी का कोई अधिक्रमण होता है तो उसकी सूचना अनुज्ञापन प्राधिकारी को आवश्यक सलाह और कार्यवाही के लिए तुरंत दी जाएगी।
Any encroachment of the safety distance shall be immediately communicated to the licensing authority for necessary advice and action.
15. यदि कोई विस्फोटक विनष्ट हुआ अथवा अनुपयोगी जाया जाता है तो उसकी सूचना अनुज्ञापन प्राधिकारी को, सलाह प्राप्त करने के लिए, तुरंत दी जाएगी।
The licensing authority shall be immediately informed for advice if any explosive is found deteriorated or unserviceable.
16. विस्फोटकों के पैकेटों के चट्टे इस प्रकार लगाए जाएंगे कि कम से कम एक व्यक्ति भण्डार किए गए सभी पैकेजों की हालत की जांच करने और प्रत्येक पैकेज की विनिर्माण विशिष्टियों को पढ़ने के लिए उनके बीच से होकर आ जा सके।
The explosive packages shall be stocked in such a way so as to allow movement of at least one person to check the condition of all packages stored and to read the manufacture particulars of each package.
तड़ित चालकों की भूमि के लिए प्रतिरोध यथासंभव न्यूनतम होगा और किसी भी दशा में 10 ओह्म से अधिक नहीं होगा।
The resistance of the lightning conductor to earth shall be as low as possible and in no case be more than 10 ohms.
17. मैगजीन के चारों ओर 15 मीटर की दूरी के अंतर्गत कोई शुल्क घास या झाड़ी या ज्वलनशील सामग्री नहीं रहने दी जाएगी।
A distance of 15 meters surrounding the magazine or store house shall be kept clear of dried grass or bush or flammable materials.
18. विस्फोटकों के प्रत्येक पैकेट की, जब उसे मैगजीन के भीतर लिया जा रहा हो, ठीक दशा जानने के लिए परीक्षा की जाएगी।
Every package of explosive at the time of bringing inside the magazine shall be examined for its sound condition.
19. किसी मैगजीन / भंडारगृह में किसी एक समय में चार व्यक्तियों से अधिक को नहीं रहने दिया जाएगा।
Not more than 4 persons shall be allowed inside the magazine or store house at any one time.
20. विस्फोटकों के खाली पैकेजों को शीघ्रतिथीय वहां से हटा दिया जाएगा और नष्ट कर दिया जाएगा।
Empty packages of the explosives shall be removed at the earliest and destroyed.
21. अनुज्ञापितधारी और कर्मचारियों को परिसर के भीतर आपातकाल के दौरान की जाने वाली प्रक्रियाओं से अवगत होना चाहिए।
The licensee and the employee shall be conversant with procedure to be taken during the emergency within the premises.
22. निरीक्षण या नमूना अधिकारी को सभी युक्तियुक्त समयों पर अनुज्ञापन परिसर में अबाध रूप से पहुंचने दिया जाएगा और यह सुनिश्चित करने के लिए कि अधिनियम और इन नियमों के उपबंधों और सुरक्षा स्थितियों को सम्यक्तः अनुपालन किया जा रहा है, अधिकारी को प्रत्येक सुविधा प्रदान की जाएगी।
Free access to the licensed premises shall be given at all reasonable times to any inspecting or sampling officer and every facility shall be afforded to the officer for ascertaining that the provisions of the Act and these rules and the safety conditions are duly observed.
23. यदि अनुज्ञापन प्राधिकारी या विस्फोटक नियंत्रक अनुज्ञापितधारी को अनुज्ञापन परिसरों या मशीनरी, टूल या उपकरण में ऐसी कोई मरम्मत या परिवर्धन या परिवर्तन करने या सिफारिशों को लागू करने को लिखित रूप में सूचित करता है जो परिसर के अंदर या बाहर या व्यक्तियों की सुरक्षा के लिए आवश्यक है, अनुज्ञापितधारी सिफारिशों को निष्पादित करेगा और विनिर्दिष्ट अवधि के भीतर अनुपालन रिपोर्ट ऐसे प्राधिकारी को देगा।
If the licensing authority or a Controller of Explosives informs in writing, the holder of the licence to execute any repairs or to make any additions or alterations to the licensed premises or machinery, tools or apparatus or carry out recommendations, which are in the opinion of such authority may pose unacceptable risk and so necessary for the safety of either on-site or off-site of the premises or persons, the holder of the license shall execute the recommendations and report compliance within the period specified by such authority.
24. अनुज्ञापितधारी मैगजीन में रखने और बिक्री के लिए प्राधिकृत विस्फोटक सूची में उल्लिखित अनुज्ञापन फैक्टरी या कंपनी से प्राधिकृत विस्फोटक / आतिशबाजी या सुरक्षा पल्लोते खरीदेगा।
The licensee shall purchase authorised explosives/ fireworks or safety fuse as mentioned in the list authorised explosives from a licensed factory or company for possession and sale from the magazine.
25. निम्न से अधिक ध्वनि स्तर उत्पादित करने वाले आतिशबाजियों पटाखों की बिक्री और रखने के लिए –
(क) जो फटने की जगह से चार मीटर की दूरी पर है, 125 डी.बी.(ए1) या 145 डी.बी.(सी)पी.के. प्रतिबंधित होंगे;
(ख) श्रृंखला (जुड़े हुए पटाखे) को गठन करने वाले व्यक्तिगत पटाखों के लिए उपर्युक्त उल्लिखित सीमा 5 लॉग₁₀(एन) डी.बी. (सी) पी.के. प्रतिबंधित होंगे;
The possession and sale of fire-crackers generating noise level exceeding;
a) 125 dB(A) or 145 dB(C)pk at 4 meters distance from the point of bursting shall be prohibited;
b) For individual fire-cracker constituting the series (joined fire-crackers), the above mentioned limit be reduced by 5 log₁₀ (N) dB, where N = number of crackers joined together.
26. आग या विस्फोट द्वारा दुर्घटना या नुकसान पटाखों की कमी या चोरी, तुरंत पास के पुलिस थाने और अनुज्ञापन प्राधिकारी और अनुज्ञापन प्राधिकारी के स्थानीय कार्यालय को रिपोर्ट की जाएगी।
Accidents by fire or explosion and losses, shortage or theft of explosives shall be immediately reported to the nearest police station and the licensing authority and local office of the licensing authority.

अतिरिक्त शर्तें / Additional Conditions :

1. अनुज्ञापितधारी विदेशी मूल के आतिशबाजी को न प्रदर्शित करेगा, न रखेगा और न ही उसकी बिक्री करेगा। The licensee shall not exhibit, possess and sell fireworks of foreign origin.

**ലൈസൻസി താഴെ പറയുന്ന വ്യവസ്ഥകൾ അനുസരിക്കേണ്ടതാകുന്നു.
വ്യവസ്ഥകളുടെ ലംഘനം ഈ ലൈസൻസ് റദ്ദ് ചെയ്യുന്നതിനും
ചട്ടപ്രകാരമുള്ള ശിക്ഷാനടപടികൾക്കും കാരണമാകാവുന്നതാണ്.**

1. കേരളാ പഞ്ചായത്ത് രാജ് ആക്ടും അതേ തുടർന്നുള്ള ചട്ടങ്ങളും ബൈലകളും അനുസരിച്ചും കാലാകാലങ്ങളിലെ സർക്കാർ ഉത്തരവുകളും ഇതര വകുപ്പുകളുടെ നിർദ്ദേശങ്ങളും അനുസരിച്ച് പ്രവർത്തിക്കേണ്ടതാകുന്നു.

2. തൊഴിൽ സ്ഥലവും അതിലുള്ള സാധനസാമഗ്രികളും പഞ്ചായത്ത് അധികാരികൾക്കോ / സെക്രട്ടറി അധികാരപ്പെടുത്തുന്ന മറ്റ് ഉദ്യോഗസ്ഥർക്കോ പരിശോധിക്കുന്നതിന് ലൈസൻസി വേണ്ട സൗകര്യം നൽകേണ്ടതും അവർ ആവശ്യപ്പെട്ടാൽ ലൈസൻസ് കാണിക്കേണ്ടതുമാകുന്നു.

3. ഏത് സ്ഥലത്തിന്റെ കാര്യത്തിൽ ലൈസൻസ് നൽകിയിരിക്കുന്നുവോ ആ സ്ഥലത്ത് എല്ലാവരും കാണത്തക്ക വിധത്തിലുള്ള ഒരു ഭാഗത്ത് ലൈസൻസി തന്റെ പേരും, ലൈസൻസിന്റെ നമ്പറും ഉദ്ദേശവും കാണിക്കുന്ന ഒരു അടയാളപ്പലക വച്ചിരിക്കേണ്ടതാണ്.

4. പഞ്ചായത്തിൽനിന്നും അനുവാദം ലഭിച്ചശേഷമല്ലാതെ തൊഴിൽസ്ഥലം മാറ്റാൻ പാടില്ലാത്തതും തൊഴിൽ നിർത്തുന്ന പക്ഷം വിവരം മുൻകൂട്ടി പഞ്ചായത്തിൽ അറിയിക്കേണ്ടതുമാണ്.

5. തൊഴിൽ സ്ഥലവും പരിസരങ്ങളും വൃത്തിയായും സാംക്രമികരോഗാണുക്കൾ ഉണ്ടാവാത്ത വിധത്തിലും പൊതുജനോപദ്രവമാകാത്ത വിധത്തിലും വ്യാപാരത്തിന് വെച്ചിട്ടുള്ള ഭക്ഷണപദാർത്ഥങ്ങൾ ഈച്ച, അണുക്കള്, പൊടി മുതലായവയുടെ ശല്യം ഉണ്ടാകാത്ത വിധത്തിലും സൂക്ഷിക്കേണ്ടതാണ്.

6. ഓരോ പ്രവർത്തി ദിവസത്തിന്റേയും ഒടുവിൽ സ്ഥലം വൃത്തിയാക്കേണ്ടതാണ്.

7. ആ സ്ഥലത്തിന്റേയോ പരിസരത്തിന്റേയോ, ഏതെങ്കിലും ഭാഗത്ത് വീഴുകയോ നിക്ഷേപിക്കപ്പെടുകയോ ചെയ്യുന്ന ചപ്പുചവറോ, മൃഗങ്ങളുടെ അവശിഷ്ടങ്ങളോ മറ്റ് പദാർത്ഥമോ ശേഖരിച്ച്, സെക്രട്ടറിക്ക് തൃപ്തികരമായ രീതിയിൽ നീക്കം ചെയ്യേണ്ടതാണ്.

8. ലൈസൻസി ഏതൊരു കെട്ടിടത്തിന്റേയും ചുമരുകളുടെ അകവശത്തിന്റെ ഏതൊരു ഭാഗവും മേൽ പറഞ്ഞ പരിസരത്തിലുള്ള തറയും നടപ്പാതയും അവിടെ തെറിച്ചുവീഴാനിടയുള്ള ഏതെങ്കിലും ഭാവകമോ, മാലിന്യമോ, ചപ്പുചവറോ, അസഹ്യവും ഉപദ്രകരവുമായ ഏതെങ്കിലും പദാർത്ഥമോ അവിടെ ലയിക്കുന്നത് തടയത്തക്കവിധം എപ്പോഴും നന്നായി കേപ്പാട് തീർത്ത് നിലനിർത്തേണ്ടതാണ്.

9. ലൈസൻസി മേൽപറഞ്ഞ സ്ഥലത്തോ, പരിസരത്തോ അതോടു ചേർന്നോ ഉള്ള ഏതൊരു ഓവുചാലും, അഴുക്കുജലം കളയുന്നതിനുള്ള ഉപകരണവും എപ്പോഴും നന്നായി കേടുപാട് തീർത്ത് വയ്യിക്കേണ്ടതാണ്.

10. ജിയോളജി പെവിറ്റ്/ലീസ് ലഭിച്ചതിന് ശേഷം ഇസി, പി.സി.ബി, ഫയർ, പെട്രോളിയം ആന്റ് എക്സ്പ്ലോസീവ് സേഫ്റ്റി ഓഫ്ഫീസ് സേഫ്റ്റി ഓഫ്ഫീസ് സേഫ്റ്റി തുടങ്ങിയ എല്ലാ നിരക്ഷേപ സാക്ഷ്യ പത്രങ്ങളിലും അനുമതികളിലും പറഞ്ഞിരിക്കുന്ന എല്ലാ നിബന്ധനകളും കർശനമായും പാലിച്ചുകൊണ്ടായിരിക്കണം ക്വാറി പ്രവർത്തിപ്പിക്കേണ്ടത്.

11. ഏതെങ്കിലും തരത്തിലുള്ള ത്വക്ക് രോഗമോ കുഷുരോഗമോ വ്രണമോ പകർച്ചാ വ്യാധികളോ ഉള്ള യാതൊരാളും കച്ചവടം നടത്തുന്നതിന് ഉപയോഗിക്കുന്ന സ്ഥലത്തും പരിസരത്തും പ്രവർത്തിക്കാൻ പാടില്ലാത്തതാകുന്നു.

12. 2016 ലെ പ്ലാസ്റ്റിക് വേസ്റ്റ് മാനേജ്മെന്റ് ചട്ടമനുസരിച്ച് പ്ലാസ്റ്റിക് ക്വാറി ബാഗുകൾ നിർമ്മിക്കുകയോ സംഭരിച്ച് വെക്കുകയോ വിതരണം ചെയ്യുകയോ വിൽപ്പന നടത്തുകയോ ചെയ്യുന്ന സ്ഥാപനങ്ങളിൽ നിന്ന് പ്രതിമാസം ചുരുങ്ങിയത് 4000 രൂപ നിരക്കിൽ ഒരു വർഷത്തേക്ക് ഏറ്റവും കുറഞ്ഞത് 48000 രൂപ വേസ്റ്റ് മാനേജ്മെന്റ് ചാർജ്ജ് ആയി ഈടാക്കുന്നതാണ്. (സർക്കുലർ നം.576/ഡി.ഡി1/2016/തസ്വഭവ തീയതി. 24/09/2017).

13. സ്ഥാപനത്തിന്റെ ബോർഡിൽ സ്ഥലനാമം മലയാളത്തിലും ഇംഗ്ലീഷിലും രേഖപ്പെടുത്തേണ്ടതാണ്.

14. 20 സീറ്റിൽ കൂടുതലുള്ള എല്ലാ ഹോട്ടലുകൾക്കും റെസ്റ്റോറന്റുകൾക്കും TOILET സൗകര്യം ഏർപ്പെടുത്തേണ്ടതാണ്.

15. നിരോധിത ഉൽപ്പന്നങ്ങളായ പാൻമസാല, ഗുഡ്ബ തുടങ്ങിയവ സംഭരിച്ചുവയ്ക്കുവാനോ വിൽക്കുവാനോ പാടില്ല.

4. Minutes of the 65th Meeting of SEIAA held on 22nd March 2017.

ENVIRONMENTAL CLEARANCE NO.32/2017

Sri. Basil Paul (Managing Partner), M/s Popular Sand and Metals, Mullackal House, Poothrikka P.O., Puthencruz via., District Ernakulam, Kerala – 682 308, vide his application received on 05-08-2015, has sought Environmental Clearance under EIA Notification, 2006 for the quarry project in Sy. Nos. 42/2 pt & 43/4 pt. at Oorakam Village and Panchayat, Thirurangadi Taluk, Malappuram District, Kerala. The project comes under Category B2 as per the O.M. No. 3012/2013-IA-II (I) dtd. 24.12.2013 of Ministry of Environment and Forests, since the area of the project is below 25 hectares. The proposed project site falls within Latitude (N) 11°05'07.12" to 11°05'13.20"N, Longitude (E) 76°01'24.94" to 76°01'34.61" E. The land use classification as per revenue records is private own land with native plantation. The present land use is rocky land. The current proposal is for the Existing quarry with pit area of 3.8675 hectares and mineral specific. Hence no alternate site was examined. The proposed project is for quarrying of 1,25,000 MTA of building stone.

BASIC INFORMATION OF QUARRY PROJECT

PART A

Project details							
1.	File No.	874/SEIAA/EC1/3105/2015					
2.	Name /Title of the project	Environment Clearance for Quarry project of M/s Popular Sand and Metals					
3.	Name and address of project proponent.	Mr. Basil Paul (Managing Partner). M/s Popular Sand and Metals, Mullackal House, Poothrikka P.O., Puthencruz Via., Ernakulam District, Kerala-682308.					
4.	Owner of the land	M/s Popular Sand and Metals					
5.	Survey No. and District/Taluk/ Village etc.	Sy. Nos. 42/2 pt., 42/3 pt., 43/4 pt., Oorakam Village & Panchayat, Thirurangadi Taluk, Malappuram District, Kerala.					
6.	Nature of the proposal – lease or permit with evidence.	Proposed quarry proposal for an area of 3.8675 ha.					
7.	Date of submission of Application	31-07-2015					
8.	Brief description of the project.	Quarry project with an area of 3.8675 ha. & proposed production capacity of 1,25,000 MTA					
9.	Details of Authorized Signatory and address for correspondence	Mr. Basil Paul (Managing Partner). M/s Popular Sand and Metals, Mullackal House, Poothrikka P.O., Puthencruz Via., Ernakulam District, Kerala-682308.					
1. Land Details							
10.	a) Extent of area in hectares	3.8675					
11.	b) Is the property forest land/Govt. land/own land/patta land	Private own land					
12.	c) Quantity of top soil/over burden and produced and managed	A total quantity of 6,693 cu. m. of topsoil and 11,712 cu. m of over burden will be removed during the mining operations. The topsoil excavated from the quarry will be dumped separately at pre-determined place and subsequently will be utilized in spreading over reclaimed areas for plantation. OB will be utilized for laying internal haul road and will form base in reclamation / plantation.					
13.	d) Latitude and Longitude	<table border="1"> <tr> <td>Latitude (N)</td> <td>11° 05' 07.12" to 11° 05' 13.20"N</td> </tr> <tr> <td>Longitude (E)</td> <td>76° 01' 24.94" to 76° 01' 34.61"E</td> </tr> </table>		Latitude (N)	11° 05' 07.12" to 11° 05' 13.20"N	Longitude (E)	76° 01' 24.94" to 76° 01' 34.61"E
Latitude (N)	11° 05' 07.12" to 11° 05' 13.20"N						
Longitude (E)	76° 01' 24.94" to 76° 01' 34.61"E						
14.	e) Topography of land and elevation	Part of the proposed area is an existing quarry and there is no any vegetation. The remaining area for proposed quarry					

		has native trees, climbers, grass, shrubs, herbs etc. The highest elevation of the lease area is 318 m MSL and lowest is 258 m MSL.
15	f) Slope analysis	As the proposed area is hilly, the slope is towards south.
16	g) Will there be any significant land disturbance resulting in soil erosion, subsidence & natural drainage.	Due care will be taken to provide channel all around the foot of the hill to collect run off and also to avoid soil erosion. There is no danger of flood or inundation as the proposed working is above the normal ground level. The area is not susceptible to floods.
17	h) Access road to the site width and condition	7 m. wide tarred road
18	i) Will there be any adverse impact on the aesthetics of the proposal site	The land used will be fully reclaimed and rehabilitated by backfilling the pits and plantation. Plantation and afforestation will add to the improvement in environment and aesthetic beauty of the area.
Mining details		
19	a) Minimum and Maximum height of excavation.	Minimum – 318 m MSL Maximum – 253 m. MSL
20	b) Life of mine proposed.	About 19 Years
21	c) Underground mining if any proposed	Not applicable
22	d) Method of Mining	The mining will be done by open cast semi-mechanized method of mining.
23	e) Distance from the adjacent quarry	There is no quarry in operation within 500 m. of the proposed quarry.
24	f) Cluster condition if any	Nil
25	g) Has "No cluster certificate" submitted?	Cluster certificate submitted along with the application.
26	h) Distance from nearby habitation	Nearest house about 104 m., (N)
27	i) Distance from nearby forest, if applicable	None within the study area
28	j) Distance from protected area, Wildlife Sanctuary, National Park etc.	None within the study area
29	k) Distance from nearby streams/rivers/National Highway and	Kadalunipuzha – about 3 km., (S) N.H. 17 – about 6.5 km., (SW)

	Roads	
30	l) Is ESA applicable? If so distance from ESA limit	Not falling in ESA
31	m) Has approved mining plan, prepared by RQP submitted?	Yes, submitted along with the application
32	n) Capacity of production in TPA	1,25,000 TPA
33	o) Details of mining process	The applied area is having building stone throughout the area. As per detailed estimation the geological reserves is about 35,68,765 MT. After deducting the minerals locked in mines safety slope of 11,79,815 MT, the mineable reserves arrived to be 23,88,950 MT. The annual production is estimated to be 1,25,000 MTA. At the end of life of mine, the ultimate floor (bottom) level will reach 253 m. MSL. Under reclamation it is anticipated to undertake plantation in the applied area.
Details of Project cost		
34	a) Land cost	About Rs. 5.92 Crores (included land, plant & machinery)
34.	b) Plant and Machinery	About Rs. 5.92 Crores (included land, plant & machinery)
35.	c) Total Cost	About Rs. 5.92 Crores (included land, plant & machinery)
36.	V. Financial Statement including funding source and details of insurance etc.	Funding = Own source & bank loan Insurance = Insurance to the quarry workers would provide through insurance company.
37.	Management Plan	Air Pollution Mining activities will generate certain quantities of dust during drilling, blasting, loading and transportation operations. The following measures will be taken to mitigate the fugitive dust from different operations. Laying of haul road as per the standards, black topping of permanent haul road and service road to avoid or eliminate air – borne dust. - To avoid the dust generation from the drilling operations, wet drilling method will be adopted. - Drill machines will be equipped with dust collectors. - Use of appropriate explosives for blasting and avoiding overcharging of blast holes.

		- Controlled blasting techniques will be adopted. - Watering of haul road and other road at regular intervals. - Provision of dust filters/ mask to workers working at highly dust prone and affected areas. - Provision of green belt all along the periphery of the lease area. - Periodical monitoring of ambient air quality in and around the lease area. The extracted mineral will be transported from the quarry to the end user by adopting following measures so as to minimize dust emissions. - In case of long transportation the trucks after loading will be covered with tarpaulin sheets. - Speed of the vehicles will be maintained within the prescribed limits. Trucks will not be over loaded and will be maintained to the body level. The following measures are being taken to control the dust emissions:- The unit is based on latest green technology and the entire unit is closed loop with proper control strategies The unit is well equipped with dust extraction system like bag filters at all traverse points to control the dust emissions. ➤ Closed conveyor system with water sprinkling arrangements are adopted in this unit ➤ Sufficient water is used to maintain the moisture content to control the fugitive emissions throughout the system
	Water Pollution	Provision of storm water collection pond with an appropriate capacity. The water requirement for sprinkling on sources of dust emission, on roads, landscaping etc. Can be met from the stored rainwater in the pond.

		Noise	The major noise generating source from the proposed activity is working machinery, drilling, blasting and plying of vehicles. The following control measures are to be undertaken to bring down the noise levels:- • Proper maintenance of machinery, equipments and improvement on design of machines. • Use of personal protective devices i.e., earmuffs and earplugs by workers, who are working in high noise generating areas. • Creation of wide green belt of dense foliage between mine areas and human habitation. • Proper training to personnel to create awareness about adverse noise level effects. Planned noise monitoring at suitable locations in the plant and outside location for proper effective remedial actions.
		Solid Waste Management	Topsoil Management A total quantity of about 6,693 cu. m. of topsoil is proposed to be removed during the mining operations. The topsoil excavated from the quarry will be dumped / stacked separately at pre-determined place and subsequently will be utilized in spreading over reclaimed areas for plantation as part of eco-restoration. Precautions will be taken to limit the height of the topsoil dump / stacked to 5 to 5 meters in order to preserve its fertility and shelf life. It will be suitably protected from soil erosion and infertility by planting fodder grass and leguminous plants during temporary storage. Overburden Management About 11,712 cu. m of overburden (OB) will be generated throughout the mine life. This waste will be utilized within the pit for lying of haul roads. At the end use, OB can be reutilized as soil base for plantation.
		Eco-	The year wise programme of eco-

		restoration	restoration for the life of mine will be made and about 3,800 trees will be planted.
38.	VI. Whether Environment Management Plan or Eco restoration Plan satisfactory?	Yes	
39.	VII. Does it suggest mitigation measures for each activity	Yes	
40.	VIII. If Pre-Feasibility Report (PFR) satisfactory	Detailed Pre-Feasibility Report (PFR) is already submitted with E.C. Application at Page No. 27-112.	
41.	IX. Does it need public hearing	Not applicable	
42.	X. Details of litigation and Court verdict if any	No	
43.	XI. Details of public complaint, if any	Nil	
44.	XII. Details of statutory sanction required	a. Environment Clearance from SEIAA b. Consents from KSPCB c. Approval from Explosive Department d. Approval from Mining & Geology Department etc.	
45.	XIII. If CRZ recommendation applicable?	Not applicable	
Environment Impact Assessment and Mitigation Measures			
Impact on water			
46.	a) Details of water requirement per day in KLD	About 19 KLD	
47.	b) Water source/sources.	The total water requirement is about 19 KLD in which 2 KLD is for domestic which would be sourced from open well, 15 KLD for dust suppression system in mine & in Ancillary Unit and 2 KLD for plantation purposes and will be sourced from storm water pond.	
48.	c) Expected water use per day in KLD.	About 19 KLD	
49.	d) Details of water requirements met from water harvesting.	About 17 KLD	
50.	e) What are the impact of the	No. The mines working have been proposed quite	

	proposal on the ground water?	above the ground water table.						
51.	f) How much of the water requirement can be met from the recycling of treated waste water? (Facilities for liquid waste treatment)	No						
52.	g) What is the incremental pollution load from waste water generated from the proposed activities?	The sewage to a tune of 1.6 KLD generated from the mine office will be diverted to the septic tank followed by soak pit.						
53.	h) How is the storm water from within the site managed?	➤ Storm water drains with silt traps will be suitably constructed all along the periphery of the pit area to collect the run-off from the lease area and divert into the storm water pond/tanks proposed within the complex. ➤ All measures will be taken not to disturb the existing drainage pattern adjacent to the other property. ➤ De-siltation traps and storm water collection pond proposed for silt removal. ➤ The storm water collected from the lease area will be utilized for dust suppression on haul roads, plantation within the premises etc.						
Impact on Biodiversity and Eco restoration Programmes								
54.	a) Will the project involve extensive clearing or modification of vegetation (Provide details)	Part of the proposed area is an existing quarry and this area is devoid of any vegetation. The remaining area for proposed quarry has native trees, shrubs, grass, shrubs, herbs etc.						
55.	b) What are the measures proposed to minimize the likely impact on vegetation (details of proposal for tree plantation/ landscaping)	The far wide programme of eco-restoration for the life of mine will be made and about 3,800 trees will be planted. Ecological restoration for the mined area by plantation of the species as per the time schedule suggested below: - <table><tr><td>First Six months</td><td>-- Herbs & grass</td></tr><tr><td>Next Six months</td><td>-- Shrubs</td></tr><tr><td>Next Six months onwards</td><td>-- Trees</td></tr></table> Selection of species is based on High Dust Capturing, Soil Holding Capacity, ground water recharge capacity etc. More focus is given for medicinal plants.	First Six months	-- Herbs & grass	Next Six months	-- Shrubs	Next Six months onwards	-- Trees
First Six months	-- Herbs & grass							
Next Six months	-- Shrubs							
Next Six months onwards	-- Trees							
56.	c) Is there any displacement of fauna – both terrestrial and aquatic. – If so what are the mitigation measures? d) Presence of any	No No endangered species found at site.						

	endangered species or red listed category (in detail)	
Impact on Air Environment		
57.	a) What are the mitigation measures on generation of dust, smoke and air quality	Details already provided at EMP section at Sr. No. 38 above.
58.	b) Details of internal traffic management of the site.	Designated space will be provided for parking of truck/tipper within the site. For the purposes of mining activities, existing roads are sufficient. However, haul road will be suitably developed within the proposed area.
60.	c) Details of noise from traffic, machines and vibrator and mitigation measures	Details already provided at EMP section at Sr. No. 38 above.
61.	d) Impact of DG sets and other equipments on noise and vibration and ambient air quality around the project site and mitigation measures	Details already provided at EMP section at Sr. No. 38 above.
62.	e) Air quality monitoring in detail	Details already provided at EMP section at Sr. No. 38 above.
Energy Conservation		
63.	a) Details of power requirement and source of supply	The total power requirement will be 75 kW for compressors which will be operated by Diesel Engine.
64.	b) Details of renewable energy (non conventional) used.	We will promote renewable energy resources.
Risk Management		
65.	1) Are there sufficient measures proposed for risk hazards in case of emergency such as accident at the site?	Detailed Environment Management Plan is already submitted with E.C. Application at Page No. 79-89.
66.	2) Are proposals for fencing around the quarry satisfactory?	Barbed wire fencing will be done all around the quarry site.
	3) Storage of explosives/hazardous substance in detail	Detailed Environment Management Plan is already submitted with E.C. Application at Page No. 79-89.
	4) Facility for solid waste management	Topsoil and over burden will be removed during the mining operations. The topsoil excavated from the quarry will be dumped separately at pre-determined place and subsequently will be utilized in spreading over reclaimed areas for plantation.

		OB will be utilized for laying internal haul road and will form base in reclamation / plantation. The municipal solid waste will be suitable disposed.																					
Socio Economic Impacts																							
67	a) Will the project cause adverse effects on local communities disturbance to sacred sites or other cultural values. What are the safe guards proposed?	No.																					
68	b) Will the proposal result in any changes to the demographic structure of local population. If so, provide details.	The proposed project will directly / indirectly develop the area by providing employment opportunities. With the proposed development in and around the area there will be many supporting facilities/ infrastructure eventually leading to the development of the area.																					
69	c) Are the CSR proposals satisfactory. Give details	Yes. A detailed study on social status of the project site surroundings & need base study on proposed CSR activities were carried out. The summary of the report is given below :- <table border="1"> <thead> <tr> <th>Sl. No.</th><th>Particulars</th><th>Rs in lakhs (approx.)</th></tr> </thead> <tbody> <tr> <td>1</td><td>Promotion of education</td><td>Rs. 6.65 Lakhs (Recurring) Rs. 2.22 Lakhs (Non-recurring)</td></tr> <tr> <td>2</td><td>Infrastructure development</td><td>Rs. 2.0 Lakhs (Recurring) Rs. 4.50 Lakhs (Non-recurring)</td></tr> <tr> <td></td><td>Care for Defenseless</td><td>Rs. 2.40 Lakhs (Recurring) Rs. 3.75 Lakhs (Non-recurring)</td></tr> <tr> <td></td><td>Ensuring environmental sustainability</td><td>Rs. 3.0 Lakhs (Recurring) Rs. Nil Lakhs (Non-recurring)</td></tr> <tr> <td>5</td><td>Reduction in carbon footprint & CO₂ emission</td><td>Rs. Nil Lakhs (Recurring) Rs. 0.90 Lakhs (Non-recurring)</td></tr> <tr> <td></td><td>Total</td><td>Rs. 14.05 Lakhs (Recurring) Rs. 11.57 Lakhs (Non-recurring)</td></tr> </tbody> </table>	Sl. No.	Particulars	Rs in lakhs (approx.)	1	Promotion of education	Rs. 6.65 Lakhs (Recurring) Rs. 2.22 Lakhs (Non-recurring)	2	Infrastructure development	Rs. 2.0 Lakhs (Recurring) Rs. 4.50 Lakhs (Non-recurring)		Care for Defenseless	Rs. 2.40 Lakhs (Recurring) Rs. 3.75 Lakhs (Non-recurring)		Ensuring environmental sustainability	Rs. 3.0 Lakhs (Recurring) Rs. Nil Lakhs (Non-recurring)	5	Reduction in carbon footprint & CO ₂ emission	Rs. Nil Lakhs (Recurring) Rs. 0.90 Lakhs (Non-recurring)		Total	Rs. 14.05 Lakhs (Recurring) Rs. 11.57 Lakhs (Non-recurring)
Sl. No.	Particulars	Rs in lakhs (approx.)																					
1	Promotion of education	Rs. 6.65 Lakhs (Recurring) Rs. 2.22 Lakhs (Non-recurring)																					
2	Infrastructure development	Rs. 2.0 Lakhs (Recurring) Rs. 4.50 Lakhs (Non-recurring)																					
	Care for Defenseless	Rs. 2.40 Lakhs (Recurring) Rs. 3.75 Lakhs (Non-recurring)																					
	Ensuring environmental sustainability	Rs. 3.0 Lakhs (Recurring) Rs. Nil Lakhs (Non-recurring)																					
5	Reduction in carbon footprint & CO ₂ emission	Rs. Nil Lakhs (Recurring) Rs. 0.90 Lakhs (Non-recurring)																					
	Total	Rs. 14.05 Lakhs (Recurring) Rs. 11.57 Lakhs (Non-recurring)																					
70	d) What are the projects benefits in terms of employment potential?	Due to the mining activity and due to the attached ancillary unit, there will be workers attracted to the project area. It is proposed to employ 25 persons in the project.																					
PART C																							
71	Details of NABET	M/s Environmental Engineers & Consultants Pvt. Ltd.																					

	approved EIA Consultant engaged- Their name, address and accreditation details	(NABET Accredited Consultant Organization) Head Office :- A1-198, JanakPuri, New Delhi. Branch Office:- C-306, Kanchanjunga Apartments, Palarivattom P.O., Kochi, Kerala.
Summary and Conclusion		
72	a) Overall justification for implementation of the project.	It is predicted that socio-economic impact due to this project will positively increase the chance of more employment opportunities for local inhabitants. There are no Resettlement and Rehabilitation issues involved in this project. The project infrastructures will be of use to people of the area. The revenue of the State Govt. will be definitely increasing due to the proposed activity. The entire project area is devoid of any endangered flora and fauna. It is proposed to reclaim the land and develop green cover for eco-restoration with native species to a maximum possible extent. Additionally, an area is earmarked outside the proposed mining area for compensatory mass plantation. Also, a storm water pond is proposed outside the mining area for storage of rain water and for its subsequent use so as to conserve fresh water consumption. Thus the proposed project is not likely to affect the environment or adjacent ecosystem adversely.
73	b) Explanation of how adverse impact have been mitigated.	Detailed Pre-Feasibility Report (PFR) with Environment Management Plan (EMP) is already submitted with E.C. Application at Page No. 75-101.

2. The proponent has submitted the approved mining plan as per KMMC Rules-2015. The proposal was placed in the 62nd meeting of SEAC held on 06th & 07th September 2016. The Committee deferred the item for field visit. Sri John Mathai will also join the sub-committee during the site visit.

Field visit to the site was carried out on 02 Nov 2016 by Dr. P.S. Harikumar and Dr Khaleel Chovva. The representatives of the proponent were present during the site inspection. The proposed project site falls within Latitude (N) 11°05'07.12" to 11°05'13.20"N, Longitude (E) 76°01'24.94" to 76°01'34.61" E.

The land is a private own land with native plantation. The current proposal is for an existing quarry with pit area of 3.8675 hectares. No habitations were seen within 100 m. The quarrying is carried by forming benches. They had constructed proper road to reach the site. The overburden was not seen properly collected and stored. The drainage needs improvement.

The following Specific conditions are suggested

1. The water drained from the site should be properly collected and clarified before discharge.
2. The overburden should be stored at a specific site and with protection.
3. The CSR has to be revised consulting the local panchayath.

In addition to the general conditions the above specific conditions needs to be complied with.

3. The proposal was considered in the 67th Meeting of SEAC held on 27th January 2017. The Committee appraised the proposal based on Form I, Pre-feasibility Report, Mining Plan, Field inspection report of the Sub Committee and all other documents submitted with the proposal. The Committee decided to Recommend for issuance of EC subject to general conditions in addition to the following specific condition for mining.

1. *If any plant species endemic to Western Ghats are noticed in the area they shall be properly protected in situ or by transplanting to an appropriate location inside the lease area.*

The proponent agreed to set apart 11.57 lakh (non-recurring) and Rs.14.05 lakh per annum (recurring) for CSR activities for the welfare of the local community in consultation with the local Panchayat.

4. The proposal was considered by the Authority in its 65th meeting held on 22.03.2017. The Authority decided to issue EC subject to the strict implementation of all specific conditions in addition to the general conditions as well as the conditions suggested by the field inspection report. An affidavit to this effect should be submitted before the issuance of EC.

5. The proponent has submitted an affidavit stating that all specific conditions shall be strictly implemented. Environmental clearance as per the EIA notification 2006 is hereby accorded for the proposed building stone quarry project of Sri. Basil Paul (Managing Partner), M/s Popular Sand and Metals, Mullackal House, Poothrikka P.O., Puthencruz via., Ernakulam, Kerala – 682 308 in Survey No. 42/2 pt, 42/3 pt & 43/4 pt. at Oorakam Village and Panchayat, Thirurangadi Taluk, Malappuram District, Kerala for an area of 3.8675 hectares, subject to the specific conditions as recommended by SEAC in para 2 & 3 above, all the environmental impact mitigation and management measures undertaken by the project proponent in the Form I, EMP, PFR and Mining Plan submitted to SEIAA. The assurances and clarifications given by the proponent will be deemed to be a part of these proceedings as if incorporated herein. Also the general conditions for projects stipulated for mining, appended hereto will be applicable and have to be strictly adhered to.

6. The clearance issued will also be subject to full and effective implementation of all the undertakings given in the application form, mitigation measures as assured in the Environment Management Plan and the mining features including progressive mine closure plan as submitted with the application and relied on for grant of this clearance. The above undertakings and the conditions and the undertakings in Chapter 4 (Mining), Chapter 5 (Blasting), Chapter 6 (Mine Drainage), Chapter 7 (Stacking of Mineral rejects and Disposal of waste) Chapter 11 (EMP) Chapter 12 (Progressive Mine Closure Plan) of the Mining Plan as submitted will be deemed to be part of this proceedings as conditions as undertaken by the proponent, as if incorporated herein.

7. Validity of the Environmental Clearance will be five years from the date of this clearance, subject to inspection by SEIAA on annual basis and compliance of the conditions, subject to earlier review of E.C in case of violation or non-compliance of conditions or genuine complaints from residents within the security area of the quarry.

8. Compliance of the conditions herein will be monitored by the State Environment Impact Assessment Authority or its authorised offices and also by the regional office of the Ministry of Environment & Forests, Govt. of India, Bangalore.

- i. Necessary assistance for entry and inspection should be provided by the project proponent and those who are engaged or entrusted by him to the staff for inspection or monitoring.
- ii. Instances of violation if any shall be reported to the District collector, Malappuram to take legal action under the Environment (Protection) Act 1986.
- iii. The given address for correspondence with the authorised signatory of the project is Sri. Basil Paul (Managing Partner), M/s Popular Sand and Metals, Mullackal House, Poothrikka P.O., Puthencruz via., Ernakulam, Kerala – 682 308.

STATE ENVIRONMENT IMPACT ASSESSMENT AUTHORITY KERALA

GENERAL CONDITIONS (for mining projects)

1. Rain Water Harvesting facility should be installed as per the prevailing provisions of KMBR / KPBR, unless otherwise specified.
2. Environment Monitoring Cell as agreed under the affidavit filed by the proponent should be formed and made functional.
3. Suitable avenue trees should be planted along either side of the tarred road and open parking areas, if any, including of approach road and internal roads.
4. Maximum possible solar energy generation and utilization shall be ensured as an essential part of the project.
5. Sprinklers shall be installed and used in the project site to contain dust emissions.
6. Eco-restoration including the mine closure plan shall be done at the own cost of the project proponent.
7. At least 10 percent out of the total excavated pit area should be retained as water storage areas and the remaining area should be reclaimed with stacked dumping and overburden and planted with indigenous plant species that are eco-friendly, if no other specific condition on reclamation of pit is stipulated in the E.C.
8. Corporate Social Responsibility (CSR) agreed upon by the proponent should be implemented
9. The lease area shall be fenced off with barbed wires to a minimum height of 4ft around, before starting of mining. All the boundary indicators (boards, stores, markings, etc) shall be protected at all times and shall be conspicuous.
10. Warning alarms indicating the time of blasting (to be done at specific timings) has to be arranged as per stipulations of Explosive Department.
11. Control measures on noise and vibration prescribed by KSPCB should be implemented.
12. Quarrying activities should be limited to day time as per KSPCB guidelines/specific conditions.
13. Blasting should be done in a controlled manner as specified by the regulations of Explosives Department or any other concerned agency.
14. A licensed person should supervise/ control the blasting operations.
15. Access roads to the quarry shall be tarred to contain dust emissions that may arise during transportation of materials.
16. Overburden materials should be managed within the site and used for reclamation of mine pit as per mine closure plan / specific conditions.
17. Height of benches should not exceed 5 m, and width should not be less than 5 m, if there is no mention is the mining plan/specific conditions.
18. Mats to reduce fly rock blast to a maximum of 10 PPV should be provided.
19. Maximum depth of mining from general ground level at site shall not exceed 10m.
20. No mining operations should be carried out at places having a slope greater than 45°.
21. Acoustic enclosures should have been provided to reduce sound amplifications in addition to the provisions of green belt and hollow brick envelop for crushers so that the noise level is kept within prescribed standards given by CPCB/KSPCB.
22. The workers on the site should be provided with the required protective equipment such as ear muffs, helmet, etc.
23. Garland drains with clarifiers to be provided in the lower slopes around the core area to channelize storm water.
24. The transportation of minerals should be done in covered trucks to contain dust emissions.
25. The proponent should plant trees at least 5 times of the loss that has been occurred while clearing the land for the project.
26. Disposal of spent oil from diesel engines should be as specified under relevant Rules/ Regulations.
27. Explosives should be stored in magazines in isolated place specified and approved by the Explosives Department.
28. A minimum buffer distance of 100m from the boundary of the quarry to the nearest dwelling unit or other structures, not being any facility for mining shall be provided.
29. 100 m buffer distance should be maintained from forest boundaries.

30. Consent from Kerala State Pollution Control Board under Water and Air Act(s) should be obtained before initiating mining activity.
31. All other statutory clearances should be obtained, as applicable, by project proponents from the respective competent authorities including that for blasting and storage of explosives.
32. In the case of any change(s) in the scope of the project, extent quantity, process of mining technology involved or in any way affecting the environmental parameters/impacts as assessed, based on which only the E.C is issued, the project would require a fresh appraisal by this Authority, for which the proponents shall apply and get the approval of this Authority.
33. The Authority reserves the right to add additional safeguard measures subsequently, if found necessary, and to take action including revoking of the environment clearance under the provisions of the Environment (Protection) Act, 1986, to ensure effective implementation of the suggested safeguard measures in a time bound and satisfactory manner.
34. The stipulations by Statutory Authorities under different Acts and Notifications should be complied with, including the provisions of Water (Prevention and Control of Pollution) Act, 1974, the Air (Prevention and control of Pollution) act 1981, the Environment (Protection) Act, 1986, the Public Liability (Insurance) Act, 1991 and EIA Notification, 2006.
35. The project proponent should advertise in at least two local newspapers widely circulated in the region, one of which (both the advertisement and the newspaper) shall be in the vernacular language informing that the project has been accorded Environmental Clearance and copies of clearance letters are available with the State Environment Impact Assessment Authority (SEIAA) office and may also be seen on the website of the Authority at www.seiaakerala.org. The advertisement should be made within 10 days from the date of receipt of the Clearance letter and a copy of the same signed in all pages should be forwarded to the office of this Authority as confirmation.
36. A copy of the clearance letter shall be sent by the proponent to concerned Grama Panchayat/ District Panchayat/ Municipality/Corporation/Urban Local Body and also to the Local NGO, if any, from whom suggestions / representations, if any, were received while processing the proposal. The Environmental Clearance shall also be put on the website of the company by the proponent.
37. The proponent shall submit half yearly reports on the status of compliance of the stipulated EC conditions including results of monitored data (both in hard copies as well as by e-mail) and upload the status of compliance of the stipulated EC conditions, including results of monitored data on their website and shall update the same periodically. It shall simultaneously be sent to the respective Regional Office of MoEF, Govt. of India and also to the State Environment Impact Assessment Authority (SEIAA) office.
38. The details of Environmental Clearance should be prominently displayed in a metallic board of 3 ft x 3 ft with green background and yellow letters in Times New Roman font of size of not less than 40. Sign board with extent of lease area and boundaries shall be depicted at the entrance of the quarry, visible to the public
39. The proponent should provide notarized affidavit (indicating the number and date of Environmental Clearance proceedings) that all the conditions stipulated in the EC shall be scrupulously followed.
40. No change in mining technology and scope of working should be made without prior approval of the SEIAA, No further expansion or modifications in the mine shall be carried out without prior approval of the SEIAA, as applicable.
41. The Project proponent shall ensure that no natural water course and/or water resources shall be obstructed due to any mining operations. Necessary safeguard measures to protect the first order streams, if any, originating from the mine lease shall be taken.
42. Monitoring of Ambient Air Quality to be carried out based on the Notification 2009, as amended from time to time by the Central Pollution Control Board. Water sprinkling should be increased at places loading and unloading points & transfer point to reduce fugitive emissions.
43. The top soil, if any, shall temporarily be stored at earmarked site(s) only for the topsoil shall be used for land reclamation and plantation. The over burden (OB) generated during the mining operations shall be stacked at earmarked dump site(s) only. The maximum height of the dumps shall not exceed 8m and width 20m and overall slope of the dumps shall be maintained to 45°. The OB dumps should be scientifically vegetated with suitable native species to prevent erosion and surface run off. In critical areas, use of geo textiles shall be undertaken for stabilization of the dump. The entire excavated area shall be backfilled. Monitoring and management of rehabilitated areas should continue until the vegetation becomes self-sustaining.

44. Catch drains and siltation ponds of appropriate size shall be constructed around the mine working, mineral and OB dumps to prevent run off of water and flow of sediments directly into the river and other water bodies. The water so collected should be utilized for watering the mine area, roads, green belt development etc. The drains shall be regularly desilted particularly after monsoon and maintained properly.
45. Effective safeguard measures such as regular water sprinkling shall be carried out in critical areas prone to air pollution and having high levels of PM₁₀ and PM_{2.5} such as haul Road, loading and unloading points and transfer points – it shall be ensured that the Ambient Air Quality parameters conform to the norms prescribed by the Central Pollution Control Board in this regard.
46. Fugitive dust emissions from all the sources should be controlled regularly. Water spraying arrangement on haul roads, loading and unloading and at transfer points should be provided and properly maintained.
47. Measures should be taken for control of noise levels below 85 dBA in the work environment.
48. A separate environmental management cell with suitable qualified personnel should be set-up under the control of a Senior Executive, who will report directly to the Head of the Organization.
49. The funds earmarked for environmental protection measures and CSR activate should be kept in separate account and should not be diverted for other purpose. Year wise expenditure should be reported to the State Environment Impact Assessment Authority (SEIAA) office.
50. The Regional Office of MOEF & CC located at Bangalore shall monitor compliance of the stipulated conditions. The project authorities should extend full cooperation to the officer (S) of the Regional Office by furnishing the requisite data/information/monitoring reports.
51. Any appeal against this Environmental Clearance shall lie with the National Green Tribunal, if preferred, within a period of 30 days as prescribed under Section 16 of the National Green Tribunal Act, 2010.
52. Concealing the factual data or submission of false/fabricated data and failure to comply with any of the conditions mentioned above may result in withdrawal of this clearance and attract action under the provisions of Environment (Protection) Act, 1986.
53. The SEIAA may revoke or suspend the order, for non implementation of any of the specific or this implementation of any of the above conditions is not satisfactory. The SEIAA reserves the right to alter/modify the above conditions or stipulate any further condition in the interest of environment protection.
54. The above conditions shall prevail notwithstanding anything to the contrary, in consistent, or simplified, contained in any other permit, license or consent given by any other authority for the same project.
55. This order is valid for a period of 5 years, or the expiry date of mine lease period issued by the Government of Kerala, whichever is earlier.
56. The Environmental Clearance will be subject to the final order of the courts in any pending litigation related to the land or project, in any court of law.
57. The mining operation shall be restricted to above ground water table and it should not intersect ground water table.
58. All vehicles used for transportation and within the mines shall have 'PUC' certificate from authorized pollution taking centre. Washing of all vehicles shall be inside the lease area'
59. Project proponent should obtain necessary prior permission of the competent authorities for drawal of requisite quantity of surface water and ground water for the project.
60. Regular monitoring of flow rates and water quality upstream and downstream of the springs and perennial nallahs flowing in and around the mine lease area shall be carried out and reported in the six monthly reports to SEIAA.
61. Occupational health surveillance program of the workers should be under taken periodically to observe any contractions due to exposure to dust and take corrective measures, if needed.

Rajeshwar

SRI.M.P.SREEKRISHNAN FOR R1

THIS WRIT PETITION (CIVIL) HAVING COME UP FOR
ADMISSION ON 18.10.2022, THE COURT ON THE SAME DAY
DELIVERED THE FOLLOWING:

JUDGMENT

Dated this the 18th day of October, 2022

The 1st petitioner, a Partnership Firm and its Managing Partner holding a quarrying lease, have approached this Court seeking to direct the 1st respondent to effect change in the occupier status in Ext.P2 Environmental Clearance in the light of Exts.P7, P8 and P10.

2. There were 11 Partners in the 1st petitioner- Partnership Firm of which, the 2nd respondent was the Managing Partner when the Environmental Clearance was issued. The Environmental Clearance No.32/2017 was issued in the name of "Sri.Basil Paul (Managing Partner, M/s.Popular Sands and Metals, Mullackal House, Poothrika P.O., Puthencruz (via), Ernakulam District, Kerala-682 308)".

3. The petitioners state that the Partnership Firm was reconstituted and the 2nd petitioner-K.S.Paulose was appointed as Managing Partner as per Ext.P7 Deed of Reconstitution dated 04.03.2020. Thereafter, the petitioner submitted application to the State Environment Impact Assessment Authority (SEIAA) to change the occupier status.

4. The SEIAA in its 118th meeting held on 30.09.2022 and 01.10.2022, decided to inform the 2nd petitioner that the change of occupier status is the internal matter of Company and it does not come under the purview of SEIAA and this decision of SEIAA is subject to further orders from this Court. The authority also noted that in the judgment dated 19.07.2021 in W.P.(C) No.14103/2021, the High Court of Kerala has directed the SEIAA to estimate the life of the project for revalidation and hence authority decided to inform the 2nd petitioner to submit all relevant documents for revalidation of Environmental Clearance, if required.

5. Though the 2nd respondent, who was the Managing Partner of the Firm, initially resisted the writ petition, subsequently, the 2nd respondent has filed an affidavit dated 14.10.2022. The affidavit proceeds to state as follows.

During the pendency of the above writ petition, certain mediators intervened in the dispute and agreed to settle my grievances with the firm and its partners. Accordingly, I am withdrawing all my contentions raised in the above writ petition. My self and my wife Ancy Paul hereby relinquishes all our claim against the firm. I have no objection in granting the reliefs sought in the writ petition on recording this affidavit.

6. As the 2nd respondent and his wife relinquished all claims in respect of the Partnership Firm, it is now to be held that the 2nd petitioner should be treated as the newly appointed Managing Partner of the Firm as decided in Ext.P7.

7. The original period of Environmental Clearance stands already expired. The petitioner states that as per the Central Government Order dated 12.04.2022 of the Ministry of Environment, Forest and Climate Change, the validity of the Environmental Clearance stand extended.

8. In view of the affidavit filed by the 2nd respondent and as long as there is no other dispute between the Partners of the 1st petitioner-Firm, the 2nd petitioner will be eligible to represent as Managing Partner of the 1st peititoner- Firm.

The writ petition is disposed of with the afore declaration.
